KETAN RAJABHAU MAKODE
Full Stack Web Developer

An inquisitive and highly motivated full stack web developer with specialization in MERN stack. Has proficiency in building fully functional web applications from scratch. Hands on experience in building MERN-based products and solving close to 500 data structures and algorithm problems. Looking forward to kick start his career in an IT company and make valuable contribution.

WORK EXPERIENCE

Masai School (Nolan Edutech Pvt Ltd)
Instructional Associate
May 2022 – Feb 2023 | Bengaluru

- Mentored almost 800+ students in resolving their DSA and MERN stack related queries through daily standups and pair programming sessions
- Worked as project manager to support 7-8 teams in building responsive websites
- Conducted assessments of periodic evaluations of close to 800+ students
